

Product Datasheet **PE/Cyanine5.5 Anti-Human CD29 Antibody [TS2/16.2.1]** Catalogue Code: AGEL0938

Antibody Data

Applications:FCMReactivity:Human	Product SKU:	AGEL0938	Clone:	TS2/16.2.1
Reactivity: Human	Applications:	FCM		
	Reactivity:	Human		

Important Note:

Centrifuge before opening to ensure complete recovery of vial contents.

Product Information:

Alternete Nemeer	Integrin hete 1.ITD1.Itch1.Fibrence	tin recenter subunit betail/(A. 4 subunit betai (D20)	
Alternate Names:	Integrin beta-1;ITB1;Itgb1;Fibronectin receptor subunit beta;VLA-4 subunit beta;CD29;		
Uniprot ID:	P05556		
Background:	CD29 is a 130 kD single chain type I glycoprotein also known as integrin β 1, VLA- β chain, or gplIa. It is broadly expressed on a majority of hematopoietic and non-hematopoietic cells, including leukocytes (although at low level on granulocytes), platelets, fibroblasts, endothelial cells, epithelial cells, and mast cells. CD29 is a member of the integrin family. It is non-covalently associated with integrin α 1- α 6 chains to form VLA-1 to VLA-6 molecules, respectively. Integrins, which include CD29, bind to several cell surface (e.g. VCAM-1, MadCAM-1) and extracellular matrix molecules. CD29 acts as a fibronectin receptor and is involved in a variety of cell-cell and cell-matrix interactions.		
Form:	Liquid	PE/Cyanine5.5 Excitation and Emission Spectra	
Conjugation:	PE/Cyanine 5.5	100	
Size:	20 Tests, 100 Tests, 200 Tests	S 60 -	
Host Species:	Mouse	00	
Isotype:	Mouse IgG1, κ	20	
		350 400 450 500 550 600 650 700 750 800 850 Wavelength (nm)	
		Ex:495;565;675 nm; Em:690 nm	
Isotype Control:	PE/Cyanine5.5 Mouse IgG1, κ Isotype Control[MOPC-21] [Product AGEL0938]		

Storage Buffer: Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.

Shipping: Biological ice pack at 4°C

- **Stability & Storage:** Keep as concentrated solution. Store at 2~8°C and protected from prolonged exposure to light. Do not freeze. Centrifuge before opening to ensure complete recovery of vial contents. This product is guaranteed up to one year from purchase.
- **Recommended** Usage: Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5 μ L of antibody per test (million cells in 100 μ L staining volume or per 100 μ L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.
