

Product Datasheet **APC Anti-Mouse CD103 Antibody [M290]** Catalogue Code: AGEL1155

## Antibody Data

Product SKU: A	GEL1155	Clone:	M290
Applications: F	СМ		
Reactivity: M	louse		

## Important Note:

Centrifuge before opening to ensure complete recovery of vial contents.

## Product Information:

Alternate Names:	Integrin alpha-E;Itgae;Integrin alpha M290;CD103;		
Uniprot ID:	Q60677		
Background:	CD103 is a type I transmembrane glycoprotein known as $\alpha$ E integrin or Integrin $\alpha$ IEL chain. It belongs to the integrin family and is primarily found on intestinal intraepithelial lymphocytes (IEL). CD103 is also expressed on a subpopulation of lamina propria T cells, epithelial dendritic cells, lamina propria-derived dendritic cells, and a small subset of peripheral lymphocytes. T regulatory cells express high level of CD103. The CD103 expression on lymphocytes can be induced upon activation and TGF- $\beta$ stimulation. In association with integrin $\beta$ 7, CD103 is expressed as $\alpha$ E/ $\beta$ 7 heterodimer. Mature CD103 protein can be cleaved into 2 chains, a 150 kD (C-terminal) chain and a 25 kD (N-terminal) chain, which remain linked by disulfide bonds. CD103 binds to E-cadherin and mediates homing of lymphocytes to the intestinal epithelium.		
Form:	Liquid	APC Excitation and Emission Spectra	
Conjugation:	APC	100 -	
Size:	25µg, 100µg		
Host Species:	Rat	€) po 500- tieruouuuuuuuuuuuuuuuuuuuuuuuuuuuuuuuuuuu	
Isotype:	Rat IgG2a, к	20 0 350 400 450 500 550 600 650 700 750 800 850 Wavelength (nm)	
		Ex:650 nm; Em:660 nm	
Isotype Control:	APC Rat IgG2a, K Isotype Control[2A3] [Product AGEI 1155]		

**Isotype Control:** APC Rat IgG2a, κ Isotype Control[2A3] [Product AGEL1155]

**Storage Buffer:** Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.

Shipping: Biological ice pack at 4°C

- **Stability & Storage:** Keep as concentrated solution. Store at 2~8°C and protected from prolonged exposure to light. Do not freeze. Centrifuge before opening to ensure complete recovery of vial contents. This product is guaranteed up to one year from purchase.
- RecommendedEach lot of this antibody is quality control tested by flow cytometric analysis. Please check<br/>your vial before the experiment. Since applications vary, the appropriate dilutions must be<br/>determined for individual use. We suggest each investigator should titrate the reagent to<br/>obtain optimal results [The recommended concentration is 0.1-1 μg/106 cells in 100 μL<br/>volume].
