

Product Datasheet **PerCP Anti-Human CD45RO Antibody [UCHL1]** Catalogue Code: AGEL1699

## Antibody Data

| Product SKU:  | AGEL1699 | Clone: | UCHL1 |  |
|---------------|----------|--------|-------|--|
| Applications: | FCM      |        |       |  |
| Reactivity:   | Human    |        |       |  |
|               |          |        |       |  |

## Important Note:

Centrifuge before opening to ensure complete recovery of vial contents.

## **Product Information:**

| Alternate Names: | -   |  |  |

| Background:      | CD45RO is a 180 kD single chain membrane glycoprotein. It is a splice variant of tyrosine phosphatase CD45, lacking the A, B, and C determinants. The CD45RO isoform is expressed on activated and memory T cells, some B cell subsets, activated monocytes/macrophages, and granulocytes. CD45RO enhances both T cell receptor and B cell receptor signaling mediated activation. CD45 and its isoforms non-covalently associate with lymphocyte phosphatase-associated phosphoprotein (LPAP) on T and B lymphocytes. CD45 has been reported to be associated with several other cell surface antigens including CD1, CD2, CD3, and CD4. CD45 has also been reported to bind galectin-1 and CD22. CD45 isoform expression can change in response to cytokines. |  |  |
| Form:            | Liquid  | PerCP Excitation and Emission Spectra                                |  |
| Conjugation:     | PerCP   | 100 -  |  |
| Size:            | 20 Tests, 100 Tests, 200 Tests  |  |  |
| Host Species:    | Mouse   | 0 0 (S)  |  |
| Isotype:         | Mouse IgG2a, к  | 20 -<br>0 350 400 450 500 550 600 650 700 750 800<br>Wavelength (nm) |  |

Shipping: Biological ice pack at 4°C

- **Stability & Storage:** Keep as concentrated solution. Store at 2~8°C and protected from prolonged exposure to light. Do not freeze. Centrifuge before opening to ensure complete recovery of vial contents. This product is guaranteed up to one year from purchase.
- **Recommended** Usage: Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5  $\mu$ L of antibody per test (million cells in 100  $\mu$ L staining volume or per 100  $\mu$ L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.
