

Product Datasheet **APC Anti-Human CD34 Antibody [581]** Catalogue Code: AGEL1735

Antibody Data

Product SKU:	AGEL1735	Clone:	581
Applications:	FCM		
Reactivity:	Human		

Important Note:

Centrifuge before opening to ensure complete recovery of vial contents.

Product Information:

Alternate Names:	Gp105-120; My10;		
Uniprot ID:	P28906		
Background:	CD34, also known as gp105-120, is a type I monomeric sialomucin-like glycophosphoprotein with an approximate molecular weight of 105-120 kD. Selectively expressed on the majority of hematopoietic stem/progenitor cells, bone marrow stromal cells, capillary endothelial cells, embryonic fibroblasts, and some nervous tissue, CD34 is a commonly used marker to identify human hematopoietic stem/progenitor cells. According to the differential sensitivity to enzymatic cleavage, four groups of epitopes of CD34 have been described. CD34 mediates cell adhesion and lymphocytes homing through binding to L-selectin and E-selectin ligands.		
Form:	Liquid	APC Excitation and Emission Spectra	
Conjugation:	APC	100 -	
Size:	20 Tests, 100 Tests, 200 Tests		
Host Species:	Mouse	(*) - 00 - 00 - 00 - 00 - 00 - 00 - 00 -	
Isotype:	Mouse IgG1, κ	20 0 350 400 450 500 550 550 600 650 700 750 800 850 Wavelength (nm) Ex:650 nm; Em:660 nm	

Isotype Control: APC Mouse IgG1, κ Isotype Control[MOPC-21] [Product AGEL1735]

Storage Buffer: Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.

Shipping: Biological ice pack at 4°C

- **Stability & Storage:** Keep as concentrated solution. Store at 2~8°C and protected from prolonged exposure to light. Do not freeze. Centrifuge before opening to ensure complete recovery of vial contents. This product is guaranteed up to one year from purchase.
- **Recommended** Usage: Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5 μ L of antibody per test (million cells in 100 μ L staining volume or per 100 μ L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.
