

Product Datasheet **PE/Cyanine5 Anti-Human CD49d Antibody [9F10]** Catalogue Code: AGEL1740

## Antibody Data

Applications: FCM	Product SKU:	AGEL1740	Clone:	9F10	
Be extiniting the second	Applications:	FCM			
Reactivity: Human	Reactivity:	Human			

## **Important Note:**

Centrifuge before opening to ensure complete recovery of vial contents.

## Product Information:

Alternate Names: Uniprot ID:	Integrin alpha-4;CD49 antigen-lik alpha;CD49d;ITGA4; P13612	e family member D;Integrin alpha-IV;VLA-4 subunit	
Background:	CD49d is a 150 kD $\alpha$ integrin chain known as $\alpha$ 4 integrin or VLA-4 $\alpha$ chain. It forms a heterodimer with either integrin $\beta$ 1 ( $\alpha$ 4 $\beta$ 1, VLA-4) or $\beta$ 7 ( $\alpha$ 4 $\beta$ 7). CD49d is expressed broadly on T lymphocytes, B lymphocytes, monocytes, thymocytes, eosinophils, basophils, mast cells, NK cells, dendritic cells, and some non-hematopoietic cells, but not on normal red blood cells, platelets or neutrophils. VLA-4 binds to VCAM-1 (CD106) and fibronectin. $\alpha$ 4 $\beta$ 7 is the receptor for VCAM-1 and MAdCAM-1. CD49d participates in mononuclear cell trafficking to endothelial sites of inflammation and has roles in cell-cell interactions and cell adhesion to extracellular matrices. CD49d is involved in lymphocyte migration, T cell activation, and hematopoietic stem cell differentiation. CD49d is a marker to isolate pure populations of Treg cells due to its absence on Foxp3+ cells.		
Form:	Liquid	PE/Cyanine5 Excitation and Emission Spectra	
Conjugation:	PE/Cyanine 5	100	
Size:	20 Tests, 100 Tests, 200 Tests	80 © 2 60	
Host Species:	Mouse	(%) Pazire Low	
Isotype:	Mouse IgG1, κ	20 0 350 400 450 500 550 550 600 650 700 750 800 Wavelength (nm)	
		Ex:495;565;655 nm; Em:670 nm	

Isotype Control:

**Storage Buffer:** Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.

Shipping: Biological ice pack at 4°C

- **Stability & Storage:** Keep as concentrated solution. Store at 2~8°C and protected from prolonged exposure to light. Do not freeze. Centrifuge before opening to ensure complete recovery of vial contents. This product is guaranteed up to one year from purchase.
- **Recommended** Usage: Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5  $\mu$ L of antibody per test (million cells in 100  $\mu$ L staining volume or per 100  $\mu$ L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.
