

Product Datasheet **PerCP Anti-Human CD29 Antibody [TS2/16.2.1]** Catalogue Code: AGEL3208

Antibody Data

| Product SKU: | AGEL3208 | Clone: | TS2/16.2.1 |
|---------------|----------|--------|------------|
| Applications: | FCM | | |
| Reactivity: | Human | | |

Important Note:

Centrifuge before opening to ensure complete recovery of vial contents.

Product Information:

| Alternate Names: | Integrin beta-1;ITB1;Itgb1;Fibronectin receptor subunit beta;VLA-4 subunit beta;CD29; | | |
|------------------|---|--|--|
| Uniprot ID: | P05556 | | |
| Background: | CD29 is a 130 kD single chain type I glycoprotein also known as integrin β 1, VLA- β chain, or gpIIa. It is broadly expressed on a majority of hematopoietic and non-hematopoietic cells, including leukocytes (although at low level on granulocytes), platelets, fibroblasts, endothelial cells, epithelial cells, and mast cells. CD29 is a member of the integrin family. It is non-covalently associated with integrin α 1- α 6 chains to form VLA-1 to VLA-6 molecules, respectively. Integrins, which include CD29, bind to several cell surface (e.g. VCAM-1, MadCAM-1) and extracellular matrix molecules. CD29 acts as a fibronectin receptor and is involved in a variety of cell-cell and cell-matrix interactions. | | |
| Form: | Liquid | PerCP Excitation and Emission Spectra | |
| Conjugation: | PerCP | 80 | |
| Size: | 20 Tests, 100 Tests, 200 Tests | (%) P0 60 - | |
| Host Species: | Mouse | 60 60 (3) 60 Vulue 40 | |
| Isotype: | Mouse IgG1, κ | 20 0 350 400 450 500 550 600 650 700 750 800 Wavelength (nm) | |
| | | Ex:440;480;675 nm; Em:675 nm | |
| Isotype Control: | PerCP Mouse IgG1, κ Isotype Control[MOPC-21] [Product AGEL3208] | | |

Storage Buffer: Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.

Shipping: Biological ice pack at 4°C

- **Stability & Storage:** Keep as concentrated solution. Store at 2~8°C and protected from prolonged exposure to light. Do not freeze. Centrifuge before opening to ensure complete recovery of vial contents. This product is guaranteed up to one year from purchase.
- **Recommended** Usage: Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5 μ L of antibody per test (million cells in 100 μ L staining volume or per 100 μ L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.
