

Product Datasheet **GenieFluor Violet 450 Anti-Human CD48 Antibody [156-4H9]** Catalogue Code: AGEL3220

## Antibody Data

| Product SKU:  | AGEL3220 | Clone: | 156-4H9 |  |
|---------------|----------|--------|---------|--|
| Applications: | FCM      |        |         |  |
| Reactivity:   | Human    |        |         |  |
|               |          |        |         |  |

## Important Note:

Centrifuge before opening to ensure complete recovery of vial contents.

## **Product Information:**

| Alternate Names:<br>Uniprot ID: | CD48 antigen;Cd48;BCM1 surface<br>antigen;SLAMF2;sgp-60;CD48;<br>P09326   | antigen;BLAST-1;HM48-1;MRC OX-45 surface |  |
|---------------------------------|---|--|--|
| Background:                     | CD48 is a 40-47 kD GPI-anchored membrane protein, also known as Blast-1 and HuLy-<br>m3. It is a member of the CD2 family that contains 2 IgSF domains and is widely expressed<br>on both resting and activated hematopoietic cells with the exception of granulocytes,<br>platelets, and erythrocytes. CD48 binds to CD2 at a considerably (>100-fold) lower affinity<br>than CD58. It is thought to contribute to T cell activation. The cytoplasmic tail of CD48 has<br>been shown to bind to the kinases Lck and Fyn. |  |  |
| Form:                           | Liquid  | 450 Excitation and Emission Spectra      |  |
| Conjugation:                    | Genie FluorViolet 450   |  |  |
| Size:                           | 20 Tests, 100 Tests, 200 Tests  | 08                                       |  |
| Host Species:                   | Mouse   |  |  |
| Isotype:                        | Mouse IgG1, κ   | 5 40                                     |  |

**Isotype Control:** Genie Fluor Violet 450 Mouse IgG1, κ Isotype Control[MOPC-21] [Product AGEL3220]

**Storage Buffer:** Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.

Shipping: Biological ice pack at 4°C

- **Stability & Storage:** Keep as concentrated solution. Store at 2~8°C and protected from prolonged exposure to light. Do not freeze. Centrifuge before opening to ensure complete recovery of vial contents. This product is guaranteed up to one year from purchase.
- **Recommended** Usage: Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5  $\mu$ L of antibody per test (million cells in 100  $\mu$ L staining volume or per 100  $\mu$ L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.
