FAS Rabbit Polyclonal Antibody

CAB0233

Product Information

Size:

20uL, 50uL, 100uL, 200uL

Observed MW:

40-50KDa

Calculated MW:

9kDa/11kDa/14kDa/16kDa/2 4kDa/35kDa/37kDa

Applications:

WB IHC

Reactivity:

Human, Mouse, Rat

Antibody Information

Recommended dilutions:

WB 1:500 - 1:2000 IHC 1:50 - 1:100

Source: Rabbit

Isotype:

IgG

Purification:

Affinity purification

Protein Background

The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor contains a death domain. It has been shown to play a central role in the physiological regulation of programmed cell death, and has been implicated in the pathogenesis of various malignancies and diseases of the immune system. The interaction of this receptor with its ligand allows the formation of a death-inducing signaling complex that includes Fas-associated death domain protein (FADD), caspase 8, and caspase 10. The autoproteolytic processing of the caspases in the complex triggers a downstream caspase cascade, and leads to apoptosis. This receptor has been also shown to activate NF-kappaB, MAPK3/ERK1, and MAPK8/JNK, and is found to be involved in transducing the proliferating signals in normal diploid fibroblast and T cells. Several alternatively spliced transcript variants have been described, some of which are candidates for nonsense-mediated mRNA decay (NMD). The isoforms lacking the transmembrane domain may negatively regulate the apoptosis mediated by the full length isoform.

Immunogen information

Gene ID:

355

Uniprot

P25445

Synonyms:

ALPS1A; APO-1; APT1; CD95; FAS1; FASTM; TNFRSF6; FAS

Immunogen:

A synthetic peptide corresponding to a sequence within amino

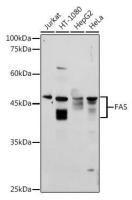

acids 150-250 of human FAS (NP_000034.1).

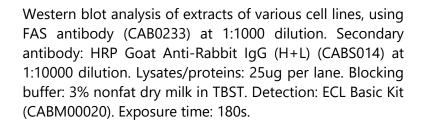

Storage:

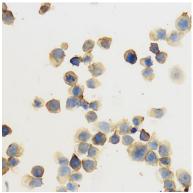

Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02%

sodium azide, 50% glycerol, pH7.3.

Product Images

Immunohistochemistry of paraffin-embedded THP-1 cells using FAS Rabbit pAb (CAB0233) at dilution of 1:100 (40x lens).
