

## CAB10577

---

### Product Information

<b>Product SKU:</b>	CAB10577	<b>Gene ID:</b>	8505	<b>Size:</b>	20uL, 100uL
<b>Clone No:</b>	-	<b>Host Species:</b>	Rabbit	<b>Reactivity:</b>	Human

---

### Additional Information

<b>Observed MW:</b>	111kDa	<b>Conjugate:</b>	Unconjugated
<b>Calculated MW:</b>	111kDa	<b>Isotype:</b>	IgG

---

### Immunogen Information

**Background:** Poly(ADP-ribose) glycohydrolase (PARG) is the major enzyme responsible for the catabolism of poly(ADP-ribose), a reversible covalent-modifier of chromosomal proteins. The protein is found in many tissues and may be subject to proteolysis generating smaller, active products. Several transcript variants encoding different isoforms have been found for this gene.

**Recommended Dilution:** WB, 1:100 - 1:500

**Synonyms:** PARG99; PARG

**Purification Method:** Affinity purification

**Immunogen:** Recombinant fusion protein containing a sequence corresponding to amino acids 777-976 of human PARG (NP\_003622.2).

**Storage:** Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.05% proclin300, 50% glycerol, pH7.3.
