

CAB13323

Product Information

Product SKU:	CAB13323	Gene ID:	217325	Size:	20uL, 100uL
Clone No:	-	Host Species:	Rabbit	Reactivity:	Mouse,Rat

Additional Information

Observed MW:	114kDa	Conjugate:	Unconjugated
Calculated MW:	114kDa	Isotype:	IgG

Immunogen Information

Background:	Predicted to enable GTPase activator activity; PDZ domain binding activity; and myosin II binding activity. Acts upstream of or within establishment or maintenance of polarity of embryonic epithelium; labyrinthine layer development; and post-embryonic development. Predicted to be located in cytosol and intracellular membrane-bounded organelle. Predicted to be active in cortical actin cytoskeleton and plasma membrane. Is expressed in several structures, including cardiovascular system; endocrine gland; genitourinary system; gut; and nasal cavity epithelium. Orthologous to human LLGL2 (LLGL scribble cell polarity complex component 2).
Recommended Dilution:	WB,1:500 - 1:2000
Synonyms:	Llglh2; 9130006H11Rik; LLGL2
Purification Method:	Affinity purification
Immunogen:	A synthetic peptide corresponding to a sequence within amino acids 938-1027 of mouse LLGL2 (NP_663413.2).
Storage:	Store at -20°C. Avoid freeze / thaw cycles.Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.
