WISP3 Rabbit Polyclonal Antibody

CAB14812

Product Information

Size:

20uL, 50uL, 100uL, 200uL

Observed MW:

41kDa

Calculated MW:

39kDa/41kDa

Applications:

- -

WB

Reactivity:

Human, Mouse, Rat

Gene ID: 8838

Protein Background

Uniprot O95389

Antibody Information

Recommended dilutions:

WB 1:500 - 1:2000

Synonyms:

WISP3; CCN6; LIBC; PPAC; PPD; WISP-3

Immunogen information

Source:

Rabbit

Immunogen:

Recombinant fusion protein containing a sequence corresponding

variants encoding different isoforms have been found for this gene.

This gene encodes a member of the WNT1 inducible signaling pathway (WISP) protein subfamily, which belongs to the connective tissue growth factor (CTGF) family. WNT1 is a

member of a family of cysteine-rich, glycosylated signaling proteins that mediate diverse developmental processes. The CTGF family members are characterized by four conserved

cysteine-rich domains: insulin-like growth factor-binding domain, von Willebrand factor type C module, thrombospondin domain and C-terminal cystine knot-like domain. This gene is

overexpressed in colon tumors. It may be downstream in the WNT1 signaling pathway that is

relevant to malignant transformation. Mutations of this gene are associated with progressive pseudorheumatoid dysplasia, an autosomal recessive skeletal disorder, indicating that the gene

is essential for normal postnatal skeletal growth and cartilage homeostasis. Multiple transcript

Isotype: to amino acids 42-260 of human WISP3 (NP_937882.1).

lgG

Storage:

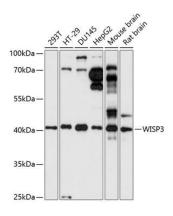

Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02%

sodium azide, 50% glycerol, pH7.3.

Purification:

Affinity purification

Product Images

Western blot analysis of extracts of various cell lines, using WISP3 antibody (CAB14812) at 1:1000 dilution. Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) (CABS014) at 1:10000 dilution. Lysates/proteins: 25ug per lane. Blocking buffer: 3% nonfat dry milk in TBST. Detection: ECL Basic Kit (CABM00020). Exposure time: 30s.
