APH1B Rabbit Polyclonal Antibody

This gene encodes a multi-pass transmembrane protein that is a functional component of the gamma-secretase complex, which also contains presentlin and nicastrin. This protein represents

a stabilizing cofactor for the presenilin holoprotein in the complex. The gamma-secretase complex catalyzes the cleavage of integral proteins such as notch receptors and beta-amyloid

CAB17784

Product Information

Size:

20uL, 50uL, 100uL, 200uL

Observed MW:

Refer to figures

Calculated MW:

Applications:

WB

Reactivity:

Human, Mouse

Q8WW43

Uniprot

Gene ID: 83464

Protein Background

Immunogen information

Synonyms:

Immunogen:

APH-1B; PRO1328; PSFL; TAAV688; APH1B

precursor protein. [provided by RefSeq, Sep 2011]

Antibody Information

Recommended dilutions:

WB 1:500 - 1:2000

Source:

Rabbit

Nabbit

Isotype: IgG Storage:

Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02%

A synthetic peptide corresponding to a sequence within amino

acids 100 to the C-terminus of human APH1B (NP_112591.2).

sodium azide, 50% glycerol, pH7.3.

Purification:

Affinity purification
