AssayGenie

CAB19094

Product Information

Product SKU:	CAB19094	Gene ID:	1026	Size:	20uL, 100uL
Clone No:	ARC51034	Host Species:	Rabbit	Reactivity :	Human, Mouse, Rat

Additional Information

Observed MW:	18kDa(Mouse)/21kDa(Human/R	Conjugate:	Unconjugated
	at)		
Calculated MW:	18kDa	lsotype:	lgG

Immunogen Information

Background:	This gene encodes a potent cyclin-dependent kinase inhibitor. The encoded protein binds to and inhibits			
	the activity of cyclin-cyclin-dependent kinase2 or -cyclin-dependent kinase4 complexes, and thus			
	functions as a regulator of cell cycle progression at G1. The expression of this gene is tightly controlled			
	by the tumor suppressor protein p53, through which this protein mediates the p53-dependent cell cycle			
	G1 phase arrest in response to a variety of stress stimuli. This protein can interact with proliferating			
	nuclear antigen, a DNA polymerase accessory factor, and plays a regulatory role in S phase DNA			
	replication and DNA damage repair. This protein was reported to be specifically cleaved by CASP3-like			
	caspases, which thus leads to a dramatic activation of cyclin-dependent kinase2, and may be			
	instrumental in the execution of apoptosis following caspase activation. Mice that lack this gene have			
	the ability to regenerate damaged or missing tissue. Multiple alternatively spliced variants have been			
	found for this gene.			
Recommended Dilution:	WB,1:500 - 1:1000 IHC-P,1:50 - 1:200			
Synonyms:	P21; CIP1; SDI1; WAF1; CAP20; CDKN1; MDA-6; p21CIP1; 21			
Purifcation Method:	Affinity purification			
Immunogen:	Recombinant fusion protein containing a sequence corresponding to amino acids 1-164 of human			
	CDKN1A/p21CIP1 (NP_000380.1).			
Storage:	Store at -20°C. Avoid freeze / thaw cycles.Buffer: PBS with 0.05% proclin300,0.05% BSA,50%			
	glycerol,pH7.3.
