PD-L2/CD273 Monoclonal Antibody CAB23287

Product Information	Immunogen information
Product SKU:	Background:
CAB23287	Involved in negative regulation of activated T cell proliferation; negative regulation of interferon-gamma production; and negative regulation of interleukin-10 production. Predicted to be located in plasma membrane. Predicted to be active in external side of plasma membrane. Biomarker of pulmonary tuberculosis.
Gene ID:	
80380	
Observed MW:	Size:
45-60kDa	20uL, 50uL, 100uL
Calculated MW:	Applications:
31kDa	Western blotting Immunohistochemistry
Category:	Synonyms:
Primary Antibody	B7DC; Btdc; PDL2; CD273; PD-L2; PDCD1L2; bA574F11.2; PD-L2/CD273
Uniprot:	Immunogen:
Q9BQ51	Recombinant protein of human PD-L2/CD273.
Reactivity:	Recommended Dilution:
Human, Mouse, Rat	WB 1:500 - 1:1000 IHC-P 1:50 - 1:200
Purification Method:	Storage:
Affinity purification	Store at -20°C. Avoid freeze / thaw cycles.Buffer: PBS with 0.05% proclin300, 0.05% BSA, 50% glycerol, pH7.3.
Source:	
Rabbit	
lsotype:	
lgG	

Immunohistochemistry analysis of paraffin-embedded mouse heart using PD-L2/CD273 Rabbit mAb (A23287) at dilution of 1:100 (40x lens).Perform high pressure antigen retrieval with 10 mM citrate buffer pH 6.0 before commencing with IHC staining protocol.
