

CAB5186

Product Information

| | | | | | |
|---------------------|---------|----------------------|--------|--------------------|-------------|
| Product SKU: | CAB5186 | Gene ID: | 5893 | Size: | 20uL, 100uL |
| Clone No: | ARC1183 | Host Species: | Rabbit | Reactivity: | Human |

Additional Information

| | | | |
|-----------------------|-------------------------|-------------------|--------------|
| Observed MW: | 50kDa | Conjugate: | Unconjugated |
| Calculated MW: | 13kDa/15kDa/25kDa/46kDa | Isotype: | IgG |

Immunogen Information

| | |
|------------------------------|---|
| Background: | The protein encoded by this gene shares similarity with <i>Saccharomyces cerevisiae</i> Rad52, a protein important for DNA double-strand break repair and homologous recombination. This gene product was shown to bind single-stranded DNA ends, and mediate the DNA-DNA interaction necessary for the annealing of complementary DNA strands. It was also found to interact with DNA recombination protein RAD51, which suggested its role in RAD51 related DNA recombination and repair. A pseudogene of this gene is present on chromosome 2. Alternative splicing results in multiple transcript variants. Additional alternatively spliced transcript variants of this gene have been described, but their full-length nature is not known. |
| Recommended Dilution: | WB, 1:500 - 1:1000 |
| Synonyms: | RAD52; DNA repair protein RAD52 homolog; Rad52 |
| Purification Method: | Affinity purification |
| Immunogen: | A synthetic peptide corresponding to a sequence within amino acids 319-418 of human Rad52 (P43351). |
| Storage: | Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 0.05% BSA, 50% glycerol, pH 7.3. |
