

CABP0032

Product Information

Product SKU:	CABP0032	Gene ID:	1978	Size:	20uL, 100uL
Clone No:	-	Host Species:	Rabbit	Reactivity:	Human

Additional Information

Observed MW:	15-20kDa	Conjugate:	Unconjugated
Calculated MW:	13kDa	Isotype:	IgG

Immunogen Information

Background: This gene encodes one member of a family of translation repressor proteins. The protein directly interacts with eukaryotic translation initiation factor 4E (eIF4E), which is a limiting component of the multisubunit complex that recruits 40S ribosomal subunits to the 5' end of mRNAs. Interaction of this protein with eIF4E inhibits complex assembly and represses translation. This protein is phosphorylated in response to various signals including UV irradiation and insulin signaling, resulting in its dissociation from eIF4E and activation of mRNA translation.

Recommended Dilution: WB, 1:500 - 1:1000

Synonyms: BP-1; 4EBP1; 4E-BP1; PHAS-I; Phospho-eIF4EBP1-S65

Purification Method: Affinity purification

Immunogen: A synthetic phosphorylated peptide around S65 of human Phospho-eIF4EBP1-S65 (NP_004086.1).

Storage: Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH 7.3.
