

Anti-Mouse H-2Db [B22/249] In Vivo Antibody - Low Endotoxin

Product Information

Product SKU:

IVMB0257

Size:

1mg, 5mg, 25mg, 50mg, 100mg

Concentration:

> 5.0 mg/ml

Isotype:

Mouse IgG2a k

Host:

Mouse

Clone:

B22/249

Category:

Hybridoma Monoclonal Antibody

Reactivity:

Mouse

Synonyms:

H-2D; H2-D; H2-D1

Specificity:

B22.249.R1 activity is directed against mouse H-2Db.

Formulation:

This monoclonal antibody is aseptically packaged and formulated in 0.01 M phosphate buffered saline (150 mM NaCl) PBS pH 7.2 - 7.4 with no carrier protein, potassium, calcium or preservatives added. Due to inherent biochemical properties of antibodies, certain products may

be prone to precipitation over time. Precipitation may be removed by aseptic centrifugation and/or filtration.

Endotoxin Level:

≤ 1.0 EU/mg as determined by the LAL method

Purity:

>95% by SDS Page · >95% monomer by analytical SEC

Immunogen:

Mouse H-2Db

Storage and Stability:

Functional grade preclinical antibodies may be stored sterile as received at 2-8°C for up to one month. For longer term storage, aseptically aliquot in working volumes without diluting and store at -70°C. Avoid Repeated Freeze Thaw Cycles.

Product Preparation:

Functional grade preclinical antibodies are manufactured in an animal free facility using In vitro cell culture techniques and are purified by a multi-step process including the use of protein A or G to assure extremely low levels of endotoxins, leachable protein A or aggregates.

Applications

Cytotoxicity Assay, In vitro depletion, IP

Applications & Recommended Usage:

Cytotoxicity Assay, In vitro depletion, IP
