

PACO15086

Product Information

Size:

50ul

Reactivity:

Human

Source:

Rabbit

Isotype:

IgG

Applications:

ELISA, WB

Recommended dilutions:

ELISA:1:1000-1:2000, WB:1:200-1:1000

Protein Background:

Members of the trefoil family are characterized by having at least one copy of the trefoil motif, a 40-amino acid, domain that contains three conserved disulfides. They are stable secretory proteins expressed in gastrointestinal mucosa. Their functions are not defined, but they may protect the mucosa from insults, stabilize the mucus layer, and affect healing of the epithelium. This gene, which is expressed in the gastric mucosa, has also been studied because of its expression in human tumors. This gene and two other related trefoil family member genes are found in a cluster on chromosome 21.

Gene ID:

TFF1

Uniprot

P04155

Synonyms:

Trefoil factor 1

Immunogen:

Fusion protein of human TFF1.

Storage:

-20° C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Product Images

Gel: 10+12%SDS-PAGE, Lysate: 40 μ g, Lane: Human fetal kidney tissue, Primary antibody: PACO15086(TFF1 Antibody) at dilution 1/100, Secondary antibody: Goat anti rabbit IgG at 1/8000 dilution, Exposure time: 30 seconds.
