

Product Information

Size:

50ul

Reactivity:

Human

Source:

Rabbit

Isotype:

IgG

Applications:

ELISA, IHC

Recommended dilutions:

ELISA:1:1000-1:2000, IHC:1:15-1:50

Protein Background:

This gene encodes a member of the ADAM (a disintegrin and metalloprotease domain) family. Members of this family are membrane-anchored proteins structurally related to snake venom disintegrins, and have been implicated in a variety of biological processes involving cell-cell and cell-matrix interactions, including fertilization, muscle development, and neurogenesis. The expression of this gene expression is testis-specific.

Gene ID:

ADAM21

Uniprot

Q9UKJ8

Synonyms:

ADAM metalloproteinase domain 21

Immunogen:

Fusion protein of human ADAM21.

Storage:

-20°C; C, pH7.4 PBS, 0.05% NaN₃, 40% Glycerol
