

PACO17619

Product Information

Size:

50ul

Reactivity:

Human

Source:

Rabbit

Isotype:

IgG

Applications:

ELISA, IHC

Recommended dilutions:

ELISA:1:1000-1:5000, IHC:1:25-1:100

Protein Background:

This gene encodes a member of the ASPP (apoptosis-stimulating protein of p53) family of p53 interacting proteins. The protein contains four ankyrin repeats and an SH3 domain involved in protein-protein interactions. It is localized to the perinuclear region of the cytoplasm, and regulates apoptosis and cell growth through interactions with other regulatory molecules including members of the p53 family. Multiple transcript variants encoding different isoforms have been found for this gene.

Gene ID:

AVPR2

Uniprot

P30518

Synonyms:

arginine vasopressin receptor 2

Immunogen:

Synthetic peptide of human AVPR2.

Storage:

-20° C, pH7.4 PBS, 0.05% NaN₃, 40% Glycerol
