TTF2 Antibody

PACO18467

Product Information

Size:

50ul

Reactivity: Human

Source:

Rabbit

Isotype:

ELISA, IHC

lgG

Applications:

Recommended dilutions:

ELISA:1:1000-1:2000, IHC:1:5-1:20

Protein Background:

The 26S proteasome is a multicatalytic proteinase complex with a highly ordered structure composed of 2 complexes, a 20S core and a 19S regulator. The 20S core is composed of 4 rings of 28 non-identical subunits; 2 rings are composed of 7 alpha subunits and 2 rings are composed of 7 beta subunits. The 19S regulator is composed of a base, which contains 6 ATPase subunits and 2 non-ATPase subunits, and a lid, which contains up to 10 non-ATPase subunits. Proteasomes are distributed throughout eukaryotic cells at a high concentration and cleave peptides in an ATP/ubiquitindependent process in a non-lysosomal pathway. An essential function of a modified proteasome, the immunoproteasome, is the processing of class I MHC peptides. This gene encodes one of the ATPase subunits, a member of the triple-A family of ATPases

which have a chaperone-like activity.

Gene ID:

TTF2

Uniprot

Q9UNY4

Synonyms:

transcription termination factor, RNA polymerase II

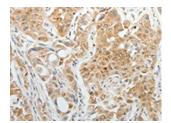

Immunogen:

Synthetic peptide of human TTF2.

Storage:

-20° C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol
