## **NPR2 Antibody**

## PACO20097

## **Product Information**

Size:

50ul

Reactivity:

Human, Mouse, Rat

Source:

Rabbit

Isotype:

lgG

**Applications:** 

ELISA, WB, IHC

**Recommended dilutions:** 

ELISA:1:2000-1:5000, WB:1:500-1:2000, IHC:1:50-1:200

**Protein Background:** 

Multifunctional adapter protein involved in diverse array of functions including trafficking of transmembrane proteins, neuro and immunomodulation, exosome biogenesis, and tumorigenesis. Positively regulates TGFB1-mediated SMAD2/3 activation and TGFB1-induced epithelial-to-mesenchymal transition (EMT) and cell migration in various cell types. May increase TGFB1 signaling by enhancing cell-surface expression of TGFR1 by preventing the interaction between TGFR1 and CAV1 and subsequent CAV1-dependent internalization and degradation of TGFR1. In concert with SDC1/4 and PDCD6IP, regulates exosome biogenesis. Regulates migration, growth, proliferation, and cell cycle progression in a variety of cancer types. In adherens junctions may function to couple syndecans to cytoskeletal proteins or signaling components. Seems to couple transcription factor SOX4 to the IL-5 receptor (IL5RA). May also play a role in vesicular trafficking. Seems to be required for the targeting of

TGFA to the cell surface in the early secretory pathway.

Gene ID:

NPR2

Uniprot

P20594

Synonyms:

natriuretic peptide receptor 2

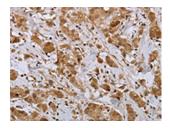

Immunogen:

Synthetic peptide of human NPR2.

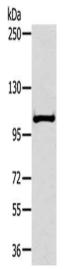

Storage:

-20° C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol

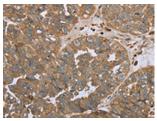

## **Product Images**

The image on the left is immunohistochemistry of paraffin-embedded Human breast cancer tissue using PACO20097(NPR2 Antibody) at dilution 1/45, on the right is treated with synthetic peptide. (Original magnification: x—200).

Gel: 6%SDS-PAGE, Lysate: 40 ug, Lane: Mouse liver tissue, Primary antibody: PACO20097(NPR2 Antibody) at dilution 1/300, Secondary antibody: Goat anti rabbit IgG at 1/8000 dilution, Exposure time: 30 seconds.

The image on the left is immunohistochemistry of paraffin-embedded Human ovarian cancer tissue using PACO20097(NPR2 Antibody) at dilution 1/45, on the right is treated with synthetic peptide. (Original magnification: x—200).
