

## Product Information

**Size:**

50ul

**Reactivity:**

Human, Mouse, Rat

**Source:**

Rabbit

**Isotype:**

IgG

**Applications:**

ELISA, WB, IHC

**Recommended dilutions:**

ELISA:1:2000-1:5000, WB:1:500-1:2000,  
IHC:1:30-1:150

**Protein Background:**

Crucial player in the regulation of plasma cholesterol homeostasis. Binds to low-density lipid receptor family members: low density lipoprotein receptor (LDLR), very low density lipoprotein receptor (VLDLR), apolipoprotein E receptor (LRP1/APOER) and apolipoprotein receptor 2 (LRP8/APOER2), and promotes their degradation in intracellular acid, c compartments. Acts via a non-proteolytic mechanism to enhance the degradation of the hepatic LDLR through a clathrin LDLRAP1/ARH-mediated pathway. May prevent the recycling of LDLR from endosomes to the cell surface or direct it to lysosomes for degradation. Can induce ubiquitination of LDLR leading to its subsequent degradation. Inhibits intracellular degradation of APOB via the autophagosome/lysosome pathway in a LDLR-independent manner. Involved in the disposal of non-acetylated intermediates of BACE1 in the early secretory pathway. Inhibits epithelial Na(+) channel (ENaC)-mediated Na(+) absorption by reducing ENaC surface expression primarily by increasing its proteasomal degradation.

**Gene ID:**

VPS26A

**Uniprot**

O75436

**Synonyms:**

vacuolar protein sorting 26 homolog A (S. pombe)

**Immunogen:**

Synthetic peptide of human VPS26A.

**Storage:**

-20&deg; C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol

## Product Images

---

The image on the left is immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using PACO20864(VPS26A Antibody) at dilution 1/40, on the right is treated with synthetic peptide. (Original magnification: x—200).

Gel: 12%SDS-PAGE, Lysate: 40 ug, Lane 1-7: 293T cells, A431 cells, HeLa cells, HepG2 cells, Human fetal liver tissue, PC3 cells, Human placenta tissue, Primary antibody: PACO20864(VPS26A Antibody) at dilution 1/200 dilution, Secondary antibody: Goat anti rabbit IgG at 1/8000 dilution, Exposure time: 40 seconds.
