## **PRKACB Antibody**

## PACO21752

Rabbit

## **Product Information**

Size: Protein Background:

100ul Mediates cAMP-dependent signaling triggered by receptor binding to GPCRs. PKA activation regulates diverse cellular processes such as cell proliferation, the cell cycle,

Reactivity: differentiation and regulation of microtubule dynamics, chromatin condensation and

Human, Mouse, Rat decondensation, nuclear envelope disassembly and reassembly, as well as regulation of

intracellular transport mechanisms and ion flux. Regulates the abundance of Source: compartmentalized pools of its regulatory subunits through phosphorylation of PJA2

which binds and ubiquitinates these subunits, leading to their subsequent proteolysis.

Gregory S. G., Nature 441:315-321(2006).

Isotype: Gene ID:

IgG PRKACB

Applications: Uniprot

ELISA, WB P22694

Recommended dilutions: Synonyms:

ELISA:1:2000-1:10000, WB:1:500-1:3000 EC 2.7.11.11; KAPB; KAPCB; PKA C-beta; PKA-beta

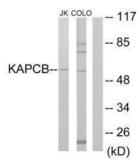

Immunogen:

Synthesized peptide derived from internal of human KAPCB.

Storage:

Rabbit IgG in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

## **Product Images**

Western blot analysis of extracts from Jurkat cells and COLO205 cells, using KAPCB antibody.
