SHB Antibody

PACO22606

Source:

Product Information

Size: Protein Background:

100ul Adapter protein which regulates several signal transduction cascades by linking

Reactivity:activated receptors to downstream signaling components. May play a role in angiogenesis by regulating FGFR1, VEGFR2 and PDGFR signaling. May also play a role

Human in T-cell antigen receptor/TCR signaling, interleukin-2 signaling, apoptosis and neuronal

cells differentiation by mediating basic-FGF and NGF-induced signaling cascades. May

also regulate IRS1 and IRS2 signaling in insulin-producing cells.

Rabbit Gene ID:

Isotype: SHB

lgG Uniprot

Applications: Q15464

ELISA, WB Synonyms:

Recommended dilutions: SH2 domain-containing adapter protein B; SHB;

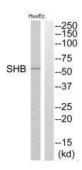

Synthesized peptide derived from C-terminal of human SHB.

Storage:

Rabbit IgG in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM

NaCl, 0.02% sodium azide and 50% glycerol.
