## **ORF3 Antibody**

## PACO35150

**Applications:** 

**Recommended dilutions:** 

## **Product Information**

Size: Protein Background:

Plays critical roles in the final steps of viral release by interacting with host TSG101, a member of the vacuolar protein-sorting pathway and using other cellular host proteins involved in vesicle formation pathway. Acts also as a viroporin and forms ion conductive

Hepatitis E virus genotype 1 pores allowing viral particle release. Impairs the generation of type I interferon by

downregulating host TLR3 and TLR7 as well as their downstream signaling pathways.

Source:
Gene ID:

Rabbit ORF3

Storage:

Isotype:
Uniprot

IgG O90299

Synonyms:
ELISA

Immunogen:

Protein ORF3 (pORF3), ORF3

Recombinant Hepatitis E virus genotype 1 Protein ORF3 protein (1-114AA).

Preservative: 0.03% Proclin 300. Constituents: 50% Glycerol, 0.01M PBS, PH 7.4
