XRCC4 Antibody

PACO43773

Reactivity:

Source:

Product Information

Size: Protein Background:

50ul Involved in DNA non-homologous end joining (NHEJ) required for double-strand break

repair and V(D)J recombination. Binds to DNA and to DNA ligase IV (LIG4). The LIG4-XRCC4 complex is responsible for the NHEJ ligation step, and XRCC4 enhances the

Human joining activity of LIG4. Binding of the LIG4-XRCC4 complex to DNA ends is dependent

on the assembly of the DNA-dependent protein kinase complex DNA-PK to these DNA

ends.

Rabbit Gene ID:

Isotype: XRCC4

lgG Uniprot

Applications: Q13426

ELISA:1:2000-1:10000, IHC:1:20-1:200

ELISA, IHC Synonyms:

Recommended dilutions: DNA repair protein XRCC4 (X-ray repair cross-complementing protein 4), XRCC4

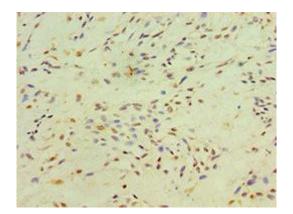

Recombinant Human DNA repair protein XRCC4 protein (1-336AA).

Storage:

Immunogen:

PBS with 0.02% sodium azide, 50% glycerol, pH7.3.
