MAP1A Antibody

PACO56884

Product Information

Size: **Protein Background:**

50ug Structural protein involved in the filamentous cross-bridging between microtubules and

other skeletal elements.

Gene ID:

Reactivity:

Human

MAP1A Source:

Uniprot Rabbit

P78559 Isotype:

Synonyms: lgG

Microtubule-associated protein 1A (MAP-1A) (Proliferation-related protein p80) **Applications:**

[Cleaved into: MAP1A heavy chain; MAP1 light chain LC2], MAP1A, MAP1L

ELISA, IHC, IF Immunogen:

Recommended dilutions: Recombinant Human Microtubule-associated protein 1A protein (1979-2168AA).

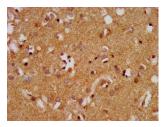

ELISA:1:2000-1:10000, IHC:1:200-1:500,

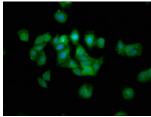

IF:1:50-1:200

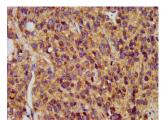

Storage:

Preservative: 0.03% Proclin 300. Constituents: 50% Glycerol, 0.01M PBS, pH 7.4

Product Images

IHC image of PACO56884 diluted at 1:400 and staining in paraffinembedded human brain tissue performed on a Leica BondTM system. After dewaxing and hydration, antigen retrieval was mediated by high pressure in a citrate buffer (pH 6.0). Section was blocked with 10% normal goat serum 30min at RT. Then primary antibody (1% BSA) was incubated at 4°C overnight. The primary is detected by a biotinylated secondary antibody and visualized using an HRP conjugated SP system.

Immunofluorescence staining of HepG2 cells with PACO56884 at 1:133, counter-stained with DAPI. The cells were fixed in 4% formaldehyde, permeabilized using 0.2% Triton X-100 and blocked in 10% normal Goat Serum. The cells were then incubated with the antibody overnight at 4°C. The secondary antibody was Alexa Fluor 488-congugated AffiniPure Goat Anti-Rabbit IgG(H+L).

IHC image of PACO56884 diluted at 1:400 and staining in paraffinembedded human glioma performed on a Leica BondTM system. After dewaxing and hydration, antigen retrieval was mediated by high pressure in a citrate buffer (pH 6.0). Section was blocked with 10% normal goat serum 30min at RT. Then primary antibody (1% BSA) was incubated at 4°C overnight. The primary is detected by a biotinylated secondary antibody and visualized using an HRP conjugated SP system.
