

CHRM2 Antibody, HRP conjugated

PACO61916

Product Information

Size:

50ul

Reactivity:

Human

Source:

Rabbit

Isotype:

IgG

Applications:

ELISA

Recommended dilutions:

Protein Background:

The muscarinic acetylcholine receptor mediates various cellular responses, including inhibition of adenylate cyclase, breakdown of phosphoinositides and modulation of potassium channels through the action of G proteins. Primary transducing effect is adenylate cyclase inhibition. Signaling promotes phospholipase C activity, leading to the release of inositol trisphosphate (IP3); this then triggers calcium ion release into the cytosol.

Gene ID:

CHRM2

Uniprot

P08172

Synonyms:

Muscarinic acetylcholine receptor M2, CHRM2

Immunogen:

Peptide sequence from Human Muscarinic acetylcholine receptor M2 protein (3-20AA).

Storage:

Preservative: 0.03% Proclin 300. Constituents: 50% Glycerol, 0.01M PBS, pH 7.4
