AIDA Antibody, Biotin conjugated

PACO63842

Reactivity:

Product Information

Size: **Protein Background:**

50ul Acts as a ventralizing factor during embryogenesis. Inhibits axin-mediated JNK

activation by binding axin and disrupting axin homodimerization. This in turn

antagonizes a Wnt/beta-catenin-independent dorsalization pathway activated by

AXIN/JNK-signaling. Human

Gene ID: Source:

AIDA Rabbit

Uniprot Isotype:

Q96BJ3 lgG

Synonyms: Applications:

Axin interactor, dorsalization-associated protein (Axin interaction partner and **ELISA**

dorsalization antagonist), AIDA, C1orf80

Recommended dilutions: Immunogen:

Recombinant Human Axin interactor, dorsalization-associated protein (14-306AA).

Storage:

Preservative: 0.03% Proclin 300. Constituents: 50% Glycerol, 0.01M PBS, pH 7.4
