Mouse Leptin tA Recombinant Protein

RPPB0725

Product Information	Protein Information
Product SKU:	Protein description:
RPPB0725	Leptin Antagonist Triple Mutant Mouse Recombinant is a single non-glycosilated polypeptide chain containing 146 amino and additional Ala at N-terminus acids and having a molecular mass of ~ 16 kDa,
Host:	LEP was mutated, resulting in L39A/D40A/F41A mutant. Leptin Antagonist Triple Mutant Mouse
Escherichia coli.	Recombinant was purified by proprietary chromatographic techniques.
	Appearance:
	White lyophilized (freeze-dried) powder.
	Formulation:
	The protein was lyophilized from a concentrated (0.65mg/ml) solution with 0.003mM NaHCO3.
	Purity:
	Creater them 00.00% as determined by (a) Califitation and usin (b) Analysis by CDC DACE

Greater than 99.0% as determined by:(a) Gel filtration analysis.(b) Analysis by SDS-PAGE.

Solubility:

It is recommended to reconstitute the lyophilized Leptin Antagonist Triple Mutant Mouse Recombinant in sterile water or sterile 0.4% NaHCO3 adjusted to pH 8-9, not less than 100µg/ml, which can then be further diluted with other aqueous solutions.

Stability:

Lyophilized Leptin Antagonist Triple Mutant Mouse Recombinant although stable at room temperature for several weeks, should be stored desiccated below -18°C. Upon reconstitution at > 0.1 Leptin mutant mg/ml and up to 2 mM and filter sterilization LEP mutant can be stored at 4°C or even room temperature for several weeks making it suitable for long term infusion studies using osmotic pumps. At lower concentration addition of a carrier protein (0.1% HSA or BSA) is suggested.Please prevent freeze-thaw cycles.

Amino Acid Sequence:

The sequence of the first five N-terminal amino acids was determined and was found to be Ala-Val-Prolle-Gln.

Biological Activity:

Assay Genie's Leptin Antagonist Triple Mutant Mouse Recombinant is capable of inhibiting Leptininduced proliferation of BAF/3 cells stably transfected with the long form of human Leptin receptor. It also inhibits various Leptin effects in several in vitro bioassays.
