

# Human DNase Recombinant Protein

RPPB1581

---

## Product Information    Protein Information

**Product SKU:**

RPPB1581

**Accession:**

P24855

**Host:**

Chinese Hamster  
Ovary Cells.

**Protein description:**

Deoxyribonuclease I Human Recombinant produced in CHO is a glycosylated, polypeptide chain containing 260 amino acids and having a total molecular mass of 37,000 Dalton with a molecular formula of C1321H1999N339O396S9. DNase is purified by proprietary chromatographic techniques.

**Appearance:**

Sterile liquid colorless solution at a concentration of 1mg/ml.

**Synonyms:**

EC 3.1.21.1, Deoxyribonuclease I, DNase I, DNLI, DRNI, FLJ38093, DNASE1.

**Formulation:**

Each mg contains 150 µg calcium chloride dehydrate and 8.77 mg NaCl.

**Stability:**

2 years when stored at 4°C, three weeks at 15°C, pH-6.3.
