

# Human HARS Recombinant Protein

RPPB1798

---

## Product Information    Protein Information

**Product SKU:**

RPPB1798

**Accession:**

P12081

**Host:**

Sf9 Insect Cells.

**Protein description:**

Histidyl-tRNA Synthetase Human Recombinant produced in baculovirus is a single, glycosylated, polypeptide chain having a molecular mass of 58.3 kDa. The Histidyl-tRNA Synthetase is fused to 6x His Tag and purified by proprietary chromatographic techniques.

**Appearance:**

Sterile Filtered clear solution.

**Synonyms:**

Histidyl-tRNA synthetase, EC 6.1.1.21, Histidine-tRNA ligase, HisRS, HRS, FLJ20491, JO-1.

**Formulation:**

The protein solution contains 20mM HEPES, 250mM sodium chloride 0.1% and 20% Glycerol, (pH 7.5).

**Purity:**

Greater than 90.0% as determined by SDS-PAGE.

**Stability:**

Histidyl-tRNA Synthetase although stable at 4°C for 3 weeks, should be stored below -18°C. Please prevent freeze-thaw cycles.
