

SAR-CoV-2 CoV-2 Spike E-Mosaic Recombinant Protein

RPPB5338

Product Information Protein Information

Product SKU:

RPPB5338

Accession:

NC_045512.2

Host:

Escherichia Coli.

Protein description:

The E.Coli derived recombinant protein contains the Coronavirus 2019 spike Envelope Mosaic immunodominant regions having a Mwq of 40.5 kDa, fused to 6xHis tag at C-terminal.

Appearance:

Sterile Filtered clear solution.

Formulation:

CoV 2019 Spike E-Mosaic Protein 1mg/ml solution is supplied in 1x PBS.

Purity:

CoV 2019 Spike E-Mosaic Protein is >90% pure as determined SDS-PAGE.

Stability:

CoV 2019 Spike E-Mosaic Protein is shipped on ice packs. Upon arrival, Store at -20°C.
