

## Recombinant UQCRFS1/RISP Monoclonal Antibody

### Description

---

This Recombinant UQCRFS1/RISP Monoclonal Antibody is supplied as a kit for advanced applications. The kit includes Bradford Reagent to quantify total protein concentration for accurate sample normalization (Optional).

### Product Information

---

|                      |                                                                                                |
|----------------------|------------------------------------------------------------------------------------------------|
| <b>SKU:</b>          | AGEL6810                                                                                       |
| <b>Contents:</b>     | Recombinant UQCRFS1/RISP Monoclonal Antibody (50 µL, 100 µL)<br>Bradford Reagent: 1 vial (2ml) |
| <b>Clone:</b>        | C111505                                                                                        |
| <b>Applications:</b> | WB, IHC-P, ICC/IF, FC, IP                                                                      |
| <b>Reactivity:</b>   | Human, Mouse, Rat                                                                              |

### Antibody Data

---

|                      |                                                                 |
|----------------------|-----------------------------------------------------------------|
| <b>Uniprot ID:</b>   | P47985                                                          |
| <b>Size:</b>         | 50 µL, 100 µL                                                   |
| <b>Host Species:</b> | Rabbit                                                          |
| <b>Isotype:</b>      | Rabbit IgG                                                      |
| <b>Conjugation:</b>  | Unconjugated                                                    |
| <b>Buffer:</b>       | PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant. |

## **Preparation & Storage**

---

|                                           |                                                                                                                                                                                                                                                        |
|-------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Storage:</b>                           | Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.<br>Store Bradford Reagent at Room Temperature for 1 Year.                                                                                                                              |
| <b>Shipping:</b>                          | Gel Pack                                                                                                                                                                                                                                               |
| <b>Preparation:</b>                       | WB 1:1000-1:5000, IHC-P 1:200-1:1000, ICC/IF 1:100, IP 1:50-1:100, FCM 1:200                                                                                                                                                                           |
| <b>Protein Quantification (Optional):</b> | To quantify total protein levels, use the Bradford Reagent included in this kit. Visit <a href="https://www.assaygenie.com/bradford-protein-assay-protocol/">https://www.assaygenie.com/bradford-protein-assay-protocol/</a> to view the full protocol |
| <b>Notes:</b>                             | Centrifuge before opening to ensure complete recovery of vial contents.                                                                                                                                                                                |

### **Manufacturers Statement**

This final kit system is assembled and quality-released by Assay Genie Limited.
