

# Anti-GEF H1 [R03-3D1] Monoclonal Antibody

## AGMB00442

### Description

---

This Anti-GEF H1 [R03-3D1] Monoclonal Antibody is supplied as a kit for advanced applications. The kit includes Bradford Reagent to quantify total protein concentration for accurate sample normalization (Optional).

### Product Information

|                       |                                                                              |
|-----------------------|------------------------------------------------------------------------------|
| <b>SKU:</b>           | AGMB00442                                                                    |
| <b>Contents:</b>      | 20µl, 50µl, 100µl<br>Bradford Reagent: 1 vial (2ml)                          |
| <b>Synonyms:</b>      | ARHG2, ARHGEF2, GEF, GEFH1, Lbcl1, Lfc, LFP40, AA408978, ARHG2, ARHG2_HUMAN, |
| <b>Applications:</b>  | <b>WB</b> <b>ICC/IF</b> <b>FC</b>                                            |
| <b>Research Area:</b> | Signal Transduction                                                          |
| <b>Form:</b>          | Liquid                                                                       |

### Antibody Data

---

|                      |                                                 |
|----------------------|-------------------------------------------------|
| <b>Reactivity:</b>   | Human, Mouse, Rat                               |
| <b>Clone:</b>        | R03-3D1                                         |
| <b>Clonality:</b>    | Monoclonal Antibody                             |
| <b>SwissProt ID:</b> | Q92974                                          |
| <b>Immunogen:</b>    | A synthesized peptide derived from human GEF H1 |
| <b>Gene ID:</b>      | 9181                                            |

#### Manufacturers Statement

This final kit system is assembled and quality-released by Assay Genie Limited.

|                          |                                              |
|--------------------------|----------------------------------------------|
| <b>Gene Name:</b>        | ARHGEF2                                      |
| <b>Host Species:</b>     | Rabbit                                       |
| <b>Isotype:</b>          | IgG                                          |
| <b>Purification:</b>     | Affinity Chromatography                      |
| <b>Conjugated:</b>       | Unconjugated                                 |
| <b>Modification:</b>     | Unmodified                                   |
| <b>Molecular Weight:</b> | Calculated MW: 112 kDa, Observed MW: 112 kDa |

## Preparation & Storage

---

**Storage:** Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.  
Store Bradford Reagent at Room Temperature for 1 Year.

**Storage Buffer:** Liquid in 10mM PBS, pH 7.4, 150mM sodium chloride, 0.05% BSA, 0.02% sodium azide and 50% glycerol.

| <b>Antibody Dilution Ratio:</b>           | Application                                                                                                                                                                                                                                             | Antibody Dilution Ratio |
|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|
