

## P2RY10 Antibody

CAB16517

### Description

---

This P2RY10 Antibody is supplied as a kit for advanced applications. The kit includes Bradford Reagent to quantify total protein concentration for accurate sample normalization (Optional).

### Product Information

---

|                      |                                                 |
|----------------------|-------------------------------------------------|
| <b>SKU:</b>          | CAB16517                                        |
| <b>Contents:</b>     | 20 µL, 100 µL<br>Bradford Reagent: 1 vial (2ml) |
| <b>Category:</b>     | Polyclonal Antibody                             |
| <b>Synonyms:</b>     | LPS2, P2Y10, LYPSR2, P2RY10                     |
| <b>Clone:</b>        | -                                               |
| <b>Applications:</b> | <span>WB</span> <span>ELISA</span>              |
| <b>Conjugation:</b>  | Unconjugated                                    |
| <b>Reactivity:</b>   | Human, Mouse, Rat                               |

### Antibody Data

---

|                       |                       |
|-----------------------|-----------------------|
| <b>Gene ID:</b>       | 27334                 |
| <b>Uniprot:</b>       | AB_2770760            |
| <b>Host Species:</b>  | Rabbit                |
| <b>Purification:</b>  | Affinity purification |
| <b>Observed MW:</b>   | 42kDa                 |
| <b>Calculated MW:</b> | 39kDa                 |

## Preparation & Storage

|                                           |                                                                                                                                                                                                                                                        |                                                                                                                             |
|-------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>Storage:</b>                           | Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.01% thimerosal, 50% glycerol, pH 7.3.<br>Store Bradford Reagent at Room Temperature for 1 Year.                                                                                         |                                                                                                                             |
| <b>Positive Sample:</b>                   | U-251MG, K-562, HepG2, Jurkat, Mouse thymus, Mouse liver, Rat thymus, Rat liver                                                                                                                                                                        |                                                                                                                             |
| <b>Recommended Dilutions:</b>             | <b>WB</b>                                                                                                                                                                                                                                              | 1:500 - 1:2000                                                                                                              |
|                                           | <b>ELISA</b>                                                                                                                                                                                                                                           | Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements. |
| <b>Protein Quantification (Optional):</b> | To quantify total protein levels, use the Bradford Reagent included in this kit. Visit <a href="https://www.assaygenie.com/bradford-protein-assay-protocol/">https://www.assaygenie.com/bradford-protein-assay-protocol/</a> to view the full protocol |                                                                                                                             |

## Validation Data

Western blot analysis of various lysates using P2RY10 Rabbit pAb (CAB16517) at 1:1000 dilution. Secondary antibody: HRP-conjugated Goat anti-Rabbit IgG (H+L) (CABS014) at 1:10000 dilution. Lysates/proteins: 25 µg per lane. Blocking buffer: 3% nonfat dry milk in TBST. Detection: ECL Basic Kit (AbGn00020). Exposure time: 45s.
