

## MAG Antibody

CAB7186

### Description

---

This MAG Antibody is supplied as a kit for advanced applications. The kit includes Bradford Reagent to quantify total protein concentration for accurate sample normalization (Optional).

### Product Information

---

|                      |                                                           |
|----------------------|-----------------------------------------------------------|
| <b>SKU:</b>          | CAB7186                                                   |
| <b>Contents:</b>     | 20 $\mu$ L, 100 $\mu$ L<br>Bradford Reagent: 1 vial (2ml) |
| <b>Category:</b>     | Polyclonal Antibody                                       |
| <b>Synonyms:</b>     | GMA, S-MAG, SPG75, SIGLEC4A, SIGLEC-4A, MAG               |
| <b>Clone:</b>        | -                                                         |
| <b>Applications:</b> | <span>WB</span> <span>ELISA</span>                        |
| <b>Conjugation:</b>  | Unconjugated                                              |
| <b>Reactivity:</b>   | Human, Mouse, Rat                                         |

### Antibody Data

---

|                       |                       |
|-----------------------|-----------------------|
| <b>Gene ID:</b>       | 4099                  |
| <b>Uniprot:</b>       | AB_2767736            |
| <b>Host Species:</b>  | Rabbit                |
| <b>Purification:</b>  | Affinity purification |
| <b>Observed MW:</b>   | 120kDa                |
| <b>Calculated MW:</b> | 69kDa                 |

## Preparation & Storage

**Storage:** Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS containing 50% glycerol, preserved with proclin300 or sodium azide (as specified on the Certificate of Analysis), pH 7.3.

Store Bradford Reagent at Room Temperature for 1 Year.

**Positive Sample:** SH-SY5Y, MCF7, K-562, SW620, Jurkat, Mouse brain, Rat brain

|                               |              |                                                                                                                             |
|-------------------------------|--------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>Recommended Dilutions:</b> | <b>WB</b>    | 1:500 - 1:3000                                                                                                              |
|                               | <b>ELISA</b> | Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements. |

**Protein Quantification (Optional):** To quantify total protein levels, use the Bradford Reagent included in this kit. Visit <https://www.assaygenie.com/bradford-protein-assay-protocol/> to view the full protocol

## Validation Data
