

## Tremelimumab Antibody

**GXBS00193**

### Description

---

This Tremelimumab Antibody is supplied for advanced applications. The kit includes Bradford Reagent to quantify total protein concentration for accurate sample normalization (Optional).

### Product Information

---

|                        |                                                                        |
|------------------------|------------------------------------------------------------------------|
| <b>SKU:</b>            | GXBS00193                                                              |
| <b>Contents:</b>       | Tremelimumab Antibody (100 µg, 1 mg)<br>Bradford Reagent: 1 vial (2ml) |
| <b>Target:</b>         | CD152                                                                  |
| <b>Form:</b>           | Liquid                                                                 |
| <b>Storage Buffer:</b> | 0.01M PBS pH 7.4.                                                      |
| <b>Applications:</b>   | ELISA, FCM, Functional assay, Research in vivo                         |

### Antibody Data

---

|                         |                                                     |
|-------------------------|-----------------------------------------------------|
| <b>Reactivity:</b>      | Human                                               |
| <b>Host species:</b>    | Human                                               |
| <b>Clonality:</b>       | Monoclonal                                          |
| <b>Accession:</b>       | P16410                                              |
| <b>Isotype:</b>         | IgG2-kappa                                          |
| <b>Purification:</b>    | Protein A/G purified from cell culture supernatant. |
| <b>Endotoxin Level:</b> | < 10 EU/mg                                          |

## Preparation & Storage

---

|                                           |                                                                                                                                                                                                                                                         |
|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Stability and Storage:</b>             | Store at 2 to 8°C for frequent use. Store at -20 to -80°C for twelve months from the date of receipt.<br>Store Bradford Reagent at Room Temperature for 1 Year.                                                                                         |
| <b>Shipping:</b>                          | Gel Pack                                                                                                                                                                                                                                                |
| <b>Protein Quantification (Optional):</b> | To quantify total protein levels, use the Bradford Reagent included in this kit. Visit <a href="https://www.assaygenie.com/bradford-protein-assay-protocol/">https://www.assaygenie.com/bradford-protein-assay-protocol/</a> to view the full protocol. |
| <b>Note:</b>                              | For research use only. Not suitable for clinical or therapeutic use.                                                                                                                                                                                    |
