

Daratumumab Non-Neutralizing Antibody

SKU: GXDA00089 | Target: Daratumumab | Monoclonal | Anti-Drug Antibody

Daratumumab Non-Neutralizing Antibody (SKU: GXDA00089) is a monoclonal anti-drug antibody (ADA) supplied by Assay Genie for research into immunogenicity against Daratumumab. It is raised in mouse and is intended for the detection and characterisation of anti-Daratumumab antibody responses in ELISA. This clone is characterised as non-neutralizing and binds Daratumumab without blocking its interaction with its target, which suits it to total-ADA and bridging assay formats.

Anti-drug antibodies are a central readout in biotherapeutic development. An immune response raised against a molecule such as Daratumumab can alter its clearance, reduce exposure and blunt clinical response, so well-characterised ADA reagents are required as assay standards, positive controls and calibrators throughout preclinical and clinical immunogenicity testing.

Specifications

Product Name	Daratumumab Non-Neutralizing Antibody
SKU	GXDA00089
Target Drug	Daratumumab
Antibody Type	Monoclonal
Clone ID	SAA2907
Host Species	Mouse
Isotype	IgG1
Applications	ELISA
Available Sizes	50 µg, 100 µg, 1 mg
CAS Number	945721-28-8

Properties

Format	Liquid
Buffer	0.01M PBS pH 7.4
Purity	>95% as determined by SDS-PAGE.
Purification	Protein A/G purified from cell culture supernatant.
Guarantee	12 months from date of dispatch

Storage & Stability

Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8°C for frequent use. Store at -20 to -80°C for twelve months from the date of receipt.

Notes

For research use only. Not for use in diagnostic or therapeutic procedures.
