

Anti-human EGF Polyclonal Antibody

KPAB0343

Description

This Anti-human EGF Polyclonal Antibody has been validated for ELISA, ELISpot, FC, Neutralization, WB applications.

Product Information

SKU:	KPAB0343
Concentration:	1.0 mg/mL
Conjugated:	Unconjugated
Applications:	ELISA, ELISpot, FC, Neutralization, WB

Antibody Data

Host:	Rabbit
Reactivity:	Human
Immunogen:	Recombinant Human EGF
Molecular Weight:	6.2 kDa (calculated) for human EGF
Purification:	Antigen-affinity Purification
Formulation:	1X PBS buffer containing 0.09% NaN ₃
Homology:	Gorilla gorilla gorilla (western lowland gorilla), Homo sapiens (human), Pan paniscus (pygmy chimpanzee), Pan troglodytes (chimpanzee)

Preparation & Storage

Storage: Stable for up to twelve months from date of receipt at 2-8°C.

Shipping: Shipped under temperature-controlled conditions using insulated packaging to maintain product stability.
