Validation Data

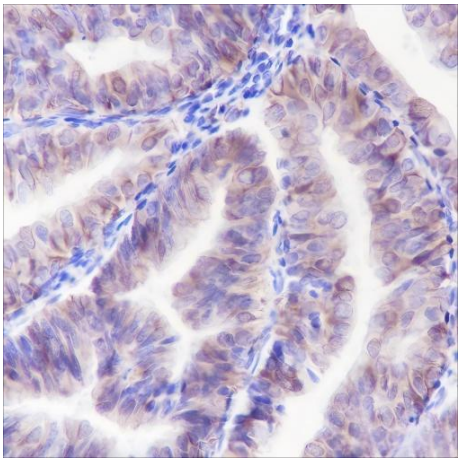

Flow cytometric analysis of human ALOX15 expression on HeLa cells. Cells were stained with purified anti- Human ALOX15, then a Alexa Fluor 488-conjugated second step antibody. The histogram were derived from events with the forward and side light-scatter characteristics of intact cells.

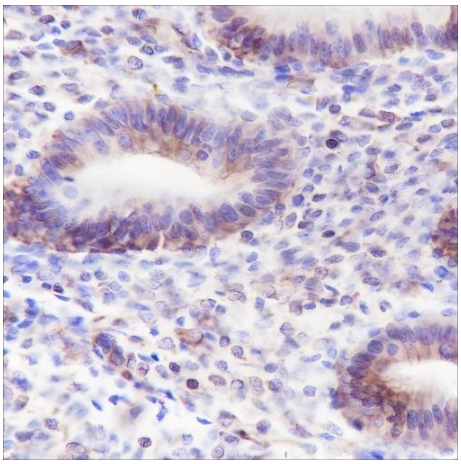

Immunofluorescent analysis of (4% Paraformaldehyde) fixed HeLa cells using anti-ALOX15 Monoclonal Antibody at dilution of 1:50.

Immunofluorescent analysis of (4% Paraformaldehyde) fixed COS-7 cells using anti-ALOX15 Monoclonal Antibody at dilution of 1:50.

Immunohistochemistry of paraffin-embedded Human endometrial cancer using ALOX15 Monoclonal Antibody at dilution of 1:100.

Immunohistochemistry of paraffin-embedded Human endometrium using ALOX15 Monoclonal Antibody at dilution of 1:100.
