Validation Data

Flow cytometric analysis of human hCG beta expression on U-2 OS cells. Cells were stained with purified anti- Human hCG beta, then a Alexa Fluor 488-conjugated second step antibody. The histogram were derived from events with the forward and side light-scatter characteristics of intact cells.

Immunohistochemistry of paraffin-embedded Human placenta using hCG beta Monoclonal Antibody at dilution of 1:100.

Immunohistochemistry of paraffin-embedded Human kidney(Negative tissue) using hCG beta Monoclonal Antibody at dilution of 1:100.
