# **Nanodisc Human OR1D5-Strep Protein**

## **HDFP1124**

### **Product Information**

Product SKU: HDFP1124 Expression Host: HEK293 Size: 10μg

**Target**: OR1D5 **Tag**: C-Flag&Strep Tag

#### **Additional Information**

**Conjugate**: Unconjugated **Uniprot ID**: P58170

**Molecular Weight:** The human full length OR1D5-Strep protein has a MW of 35.4 kDa

#### **Protein Information**

**Background**: Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal

response that triggers the perception of a smell. The olfactory receptor proteins are

members of a large family of G-protein-coupled receptors (GPCR) arising from single

coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure

with many neurotransmitter and hormone receptors and are responsible for the

recognition and G protein-mediated transduction of odorant signals. The olfactory

receptor gene family is the largest in the genome. The nomenclature assigned to the

olfactory receptor genes and proteins for this organism is independent of other

organisms. [provided by RefSeq, Jul 2008]

**Synonyms**: C17orf2, OR17-2, OR17-30, OR17-31, OR1D4

**Protein Description**: Human OR1D5-Strep full length protein-synthetic nanodisc

Formulation: Lyophilized from nanodisc solubilization buffer (20 mM Tris-HCl, 150 mM NaCl, pH

8.0). Normally 5% - 8% trehalose is added as protectants before lyophilization. Please

see Certificate of Analysis for specific instructions. Do not use solvents with a pH

below 6.5 or those containing high concentrations of divalent metal ions (greater

than 5 mM) in subsequent experiments.

**Protein Pathways**: GPCRDB Class A Rhodopsin-like.

**Protein Families:** Transmembrane, Druggable Genome.

**Usage**: Research use only

Storage & Shipping:

Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.
