

RPCB0135

Product Information

Product SKU:	RPCB0135	Gene ID:	7010	Size:	10µg
Tag:	No tag	Reactivity:	Human		

Additional Information

Expression Host:	Baculovirus-Infected Sf9 Cells	Swissprot:	Q02763
Purity:	> 97% by SDS-PAGE.		

Protein Information

Background: Tyrosine-protein kinase that acts as cell-surface receptor for ANGPT1, ANGPT2 and ANGPT4 and regulates angiogenesis, endothelial cell survival, proliferation, migration, adhesion and cell spreading, reorganization of the actin cytoskeleton, but also maintenance of vascular quiescence. Has anti-inflammatory effects by preventing the leakage of proinflammatory plasma proteins and leukocytes from blood vessels. Required for normal angiogenesis and heart development during embryogenesis. Required for post-natal hematopoiesis. After birth, activates or inhibits angiogenesis, depending on the context. Inhibits angiogenesis and promotes vascular stability in quiescent vessels, where endothelial cells have tight contacts.

Protein Description: High quality, high purity and low endotoxin recombinant Recombinant Human TIE2/TEK/CD202b Protein, tested reactivity in Baculovirus-Infected Sf9 Cells and has been validated in SDS-PAGE. 100% guaranteed.

Endotoxin: < 1.0 EU/µg of the protein by LAL method.

Formulation: Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4. Contact us for customized product form or formulation.

Storage: Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt. After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.
