Recombinant Mouse Dkk-3 Protein

RPCB1896

Product Information

Product SKU: RPCB1896 **Gene ID**: 50781 **Size**: 10μg

Tag: C-His Reactivity: Mouse

Additional Information

Expression Host: - **Swissprot**: Q9QUN9

Purity: -

Protein Information

Background: DKK3 (dickkopf related protein 3) is a member of the dickkopf-related family

consisting of DKK1, DKK2, DKK3 and DKK4. It is a secreted protein, and also known

as REIC (Reduced Expansion in Immortalized Cells). The DKK3 protein is proposed to

function as a secreted tumor suppressor since it is downregulated in a number of

cancer cells and prostate cancer tissue and may be a promising candidate molecule

for therapeutic interference. DKK3 protein is also a negative regulator of beta-catenin

and its downregulation contribute to an activation of the beta-catenin signaling

pathway.

Protein Description: High quality, high purity and low endotoxin recombinant Recombinant Mouse Dkk-

3 Protein, tested reactivity in HEK293 cells and has been validated in SDS-PAGE.100%

guaranteed.

Endotoxin: <0.01EU/μg of the protein by LAL method.

Formulation: Lyophilized from a 0.22 μm filtered solution of PBS, pH 7.4.

Storage: Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the

date of receipt. After reconstitution, the protein solution is stable at -20°C for 3

months, at 2-8°C for up to 1 week.
