

Recombinant Dechloromonas aromatica Chlorite Dismutase Protein (His RPES3373

Description

This high-purity recombinant protein is supplied as a kit for advanced applications. The kit includes Bradford Reagent to quantify total protein concentration for accurate sample normalization (Optional).

Protein Information

SKU: RPES3373

Purity: > 95 % as determined by reducing SDS-PAGE.

Contents: 50µg, 10µg
Bradford Reagent: 1 vial (2ml)

Concentration: -

Species: Dechloromonas Aromatica

Endotoxin: < 1.0 EU per µg of the protein as determined by the LAL method.

Synonyms: Chlorite O(2)-lyase, Chlorite dismutase, Cld, Daro_2580

Storage: Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80 °C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months. Store Bradford Reagent at Room Temperature for 1 year.

Tag: N-His

Shipping: This product is provided as lyophilized powder which is shipped with ice packs.

Expression Host: E.coli

Bio-Activity: Not validated for activity

Calculated MW: 31.3 kDa

Formulation: Lyophilized from a 0.2 µm filtered solution of 20mM Tris-HCl, 150mM NaCl, 0.5mM EDTA, 4% sucrose, 0.02% Tween 80, pH 7.4. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual.

Observed MW: 32 kDa

Reconstitution: Please refer to the printed manual for detailed information.

Manufacturers Statement: This final kit system is assembled and quality-released by Assay Genie Limited.

Accession: Q47CX0

Source: E.coli-derived Dechloromonas aromatica Chlorite O(2)-lyase/Chlorite Dismutase protein Met35-Asp282, with an N-terminal His

Sequence: Met35-Asp282

Form: Lyophilized powder

Protein Quantification (Optional): To quantify total protein levels, use the Bradford Reagent included in this kit. Visit <https://www.assaygenie.com/bradford-protein-assay-protocol/> to view the full protocol

Notes: Centrifuge before opening to ensure complete recovery of vial contents.
