

Recombinant Human CD4/LEU3 Protein (aa 1-208, His Tag)

RPES3560

Description

This high-purity recombinant protein is supplied as a kit for advanced applications. The kit includes Bradford Reagent to quantify total protein concentration for accurate sample normalization (Optional).

Protein Information

SKU: RPES3560

Purity: > 94 % as determined by reducing SDS-PAGE.

Contents: 100µg
Bradford Reagent: 1 vial (2ml)

Concentration: -

Species: Human

Endotoxin: < 1.0 EU per µg of the protein as determined by the LAL method.

Synonyms: CD4, CD4mut, Scd4, T-cell surface antigen T4/Leu-3, T-cell surface glycoprotein CD4

Storage: Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80 °C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months.
Store Bradford Reagent at Room Temperature for 1 year.

Tag: C-His

Shipping: This product is provided as lyophilized powder which is shipped with ice packs.

Expression Host: HEK293 Cells

Bio-Activity: 1. Measured by its ability to bind biotinylated GP140-His in a functional ELISA. 2. Measured by the ability of the immobilized protein to support the adhesion of HeLa human cervical epithelial carcinoma cells. When 5 x 10⁴ cells/well are added to CD4- coated plates (2.5 µg/ml and 100 µl/well), approximately 40 %-60 % will adhere specifically after 60 minutes at 37°C.

Calculated MW: 21.7 kDa

Formulation: Lyophilized from sterile PBS, pH 7.4. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual.

Manufacturers Statement: This final kit system is assembled and quality-released by Assay Genie Limited.

Observed MW: 26 kDa

Reconstitution: Please refer to the printed manual for detailed information.

Accession: NP_000607.1

Protein Quantification (Optional): To quantify total protein levels, use the Bradford Reagent included in this kit. Visit <https://www.assaygenie.com/bradford-protein-assay-protocol/> to view the full protocol

Source: HEK293 Cells-derived Human CD4/LEU3 protein Met 1-Ser 208, with an C-terminal His

Sequence: Met 1-Ser 208

Notes: Centrifuge before opening to ensure complete recovery of vial contents.

Form: Lyophilized powder
