

Recombinant Human CCNA1/Cyclin-A1 Protein (His Tag)

RPES4344

Description

This high-purity recombinant protein is supplied as a kit for advanced applications. The kit includes Bradford Reagent to quantify total protein concentration for accurate sample normalization (Optional).

Protein Information

SKU: RPES4344

Purity: > 96 % as determined by reducing SDS-PAGE.

Contents: 100µg
Bradford Reagent: 1 vial (2ml)

Concentration: -

Species: Human

Endotoxin: < 1.0 EU per µg of the protein as determined by the LAL method.

Synonyms: CT146

Storage: Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80 °C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months.
Store Bradford Reagent at Room Temperature for 1 year.

Tag: N-His

Shipping: This product is provided as lyophilized powder which is shipped with ice packs.

Expression Host: Baculovirus-Insect Cells

Bio-Activity: 1. Immobilized human His-CCNA1 at 10 µg/ml (100 µl/well) can bind biotinylated human CDK1. The EC50 of biotinylated human CDK1 is 0.02-0.04 µg/ml. 2. Immobilized human His-CCNA1 at 10 µg/ml (100 µl/well) can bind biotinylated human CDK2-His. The EC50 of biotinylated human CDK2-His is 0.07-0.15 µg/ml.

Calculated MW: 54.6 kDa

Formulation: Lyophilized from sterile 20mM Tris, 500mM NaCl, pH 7.4 Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual.

Manufacturers Statement: This final kit system is assembled and quality-released by Assay Genie Limited.

Observed MW: 50 kDa

Reconstitution: Please refer to the printed manual for detailed information.

Accession: NP_003905.1

Protein Quantification (Optional): To quantify total protein levels, use the Bradford Reagent included in this kit. Visit <https://www.assaygenie.com/bradford-protein-assay-protocol/> to view the full protocol

Source: Baculovirus-Insect Cells-derived Human CCNA1/Cyclin-A1 protein Met 1-Gln 465, with an N-terminal His

Sequence: Met 1-Gln 465

Notes: Centrifuge before opening to ensure complete recovery of vial contents.

Form: Lyophilized powder
