

Recombinant Human Galectin-8/LGALS8 Protein (GST Tag)

RPES4606

Description

This high-purity recombinant protein is supplied as a kit for advanced applications. The kit includes Bradford Reagent to quantify total protein concentration for accurate sample normalization (Optional).

Protein Information

SKU: RPES4606

Purity: > 76 % as determined by reducing SDS-PAGE.

Contents: 100µg
Bradford Reagent: 1 vial (2ml)

Concentration: -

Species: Human

Endotoxin: Please contact us for more information.

Synonyms: Gal-8, Galectin-8, LGALS8, PCTA-1, Po66 Carbohydrate-Binding Protein, Po66-CBP, Prostate Carcinoma Tumor Antigen 1

Storage: Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80 °C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months.
Store Bradford Reagent at Room Temperature for 1 year.

Tag: N-GST

Shipping: This product is provided as lyophilized powder which is shipped with ice packs.

Expression Host: E.coli

Bio-Activity: Measured by its ability to agglutinate human red blood cells. The ED50 for this effect is typically 0.2-1 µg/ml.

Calculated MW: 62.7 kDa

Formulation: Lyophilized from sterile 50mM Tris, 0.1 M NaCl, pH 8.0 Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual.

Observed MW: 60 kDa

Reconstitution: Please refer to the printed manual for detailed information.

Manufacturers Statement: This final kit system is assembled and quality-released by Assay Genie Limited.

Accession: AAF19370.1

Source: E.coli-derived Human Galectin-8/LGALS8 protein Met 1-Trp 317, with an N-terminal GST

Sequence: Met 1-Trp 317

Form: Lyophilized powder

Protein Quantification (Optional): To quantify total protein levels, use the Bradford Reagent included in this kit. Visit <https://www.assaygenie.com/bradford-protein-assay-protocol/> to view the full protocol

Notes: Centrifuge before opening to ensure complete recovery of vial contents.
